Date:						

Ans 2. (d) ~~120~~ 20 cm

A1 ~~120~~ 120

A4 True

A3 6

A7. (a) $45 + 35 = 70$ students

(b) $120 - 70 = 50$ students

(c) I added the numbers and then subtracted from the total students

A5 (a) 6 pencils

(b) $48 \div 8 = 6$

A6 Area = $12 \times 7 = 84 \text{ cm}^2$

A8 (a) Perimeter = 86 m

(b) Area = 250 m^2

(c) Perimeter helps the farmer know the length around the field for putting a fence.

(d) Area is how much land is inside. Perimeter is the outside length.
